

# ALL ABOARD

Volume 10 Issue 7

July 2017

Well as always this issue has arrived with the speed and efficiency of the Post World War II Italian Railway system. When it was running.

Enough of the history lesson and on with the news. As some of you who may have shown up at Hobbytown USA noticed, we moved the meeting. Sorry that some may have missed the notice, but it appears we all aren't on the same page. Some of us get the notices sent through the Yahoo group. Some don't get the messages except by carrier pigeon and some just plain don't get it. The news that is.

Well if you haven't figured out by now that the meeting is Saturday the 15th, here is official notice. This meeting is important since we will be discussing several topics which will determine thye future direction of the club. These include module types, storage options and such. Please attend if possible.

Our next show is the Temple train show the third weekend of September (16 and 17th). This is our one big club road trip and if you haven't gone well then you don't know what you are missing. We will be part of a large TTrak layout in one of the large side rooms. Details are still forthcoming.

Our next show after that will be the New Braunfels show the last weekend of October. We will receive details on that show as we get them also.

Also being as this is the first month of the second half of the year (you do the math on that one), dues are due for the second half of the year.

Really not much else to say so I will see you at the meeting Saturday July 15th at Hobbytown USA, 10:30 sharp, sorta.

**CHANGES IN CONTACT  
INFORMATION**

If you change an address, e-mail, phone #, etc., please let us know.

**If you don't tell us, we don't know!**

This space available for general ads for members in good standing or whatever. Please note this is to see if you really read the newsletter. We have not approved any of this, its just an idea.

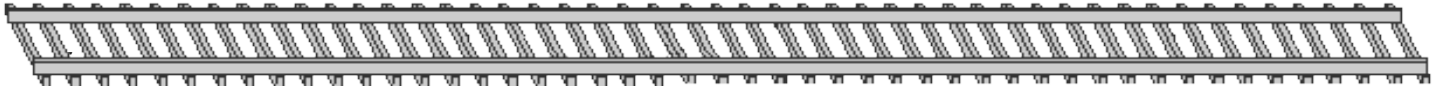

I am selling some N Gage track and bridges. I have some Kato and some Atlas. If any of your members would like to know what I have please call. I am not getting out of the hobby. I am currently building a 4 track N Gage rail road on a 14ft by 8ft. I am still in the process of building and have way too much track as of now. Again if any one needs track, bridges, roadbed I have it. Please call.
