

ALL ABOARD

Volume 10 Issue 8

August 2017

Well its gonna be another hot day. Perfect for staying inside and working on something cool. Well not much going on this month. We cleaned up the storage unit and donated a lot of stuff to the SAMM shelter.

Coming up next month we have the Centra Mod train show. I have ended up in charge of the layout design and planning. Unfortunately I have not been given much to go on. We have no information as to what size the room is, who is in charge or much of anything in the way of who is even participating. Sounds like a challenge, but once again I will triumph. Seems Custer said something along those lines too.

Our next show after Temple will be the New Braunfels Fall show October 28th and 29th. We will be on the stage again and Ray will be the coordinator. More details hopefully at this months meeting.

Still no news on the clubhouse search. I'm sure something will come up soon.

Well there just isn't much to report this month so its short and sweet.

**CHANGES IN CONTACT
INFORMATION**

If you change an address, e-mail, phone #, etc., please let us know.

If you don't tell us, we don't know!

This space available for general ads for members in good standing or whatever. Please note this is to see if you really read the newsletter. We have not approved any of this, its just an idea.

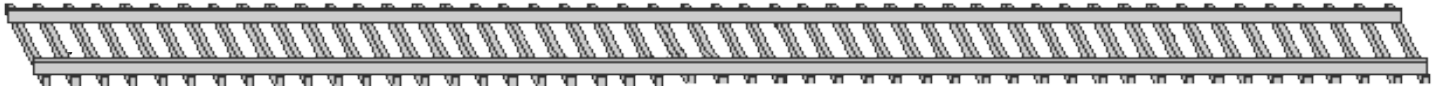

I am selling some N Gage track and bridges. I have some Kato and some Atlas. If any of your members would like to know what I have please call. I am not getting out of the hobby. I am currently building a 4 track N Gage rail road on a 14ft by 8ft. I am still in the process of building and have way too much track as of now. Again if any one needs track, bridges, roadbed I have it. Please call.

- 3. Raffle Layout
- 4 Bulverde/Spring Branch Library setup in November, This will be a two day setup.

Meeting adjourned 1120 am

B Williams
Stationmaster

Superintendent's Page

From the Superintendent's Desk:

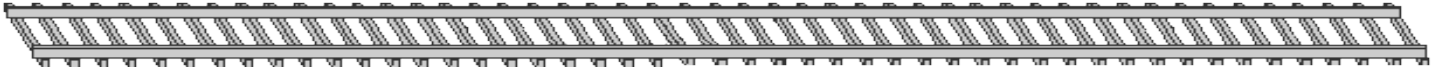

Well what better way to spend a hot July morning than cleaning out a 462 sq. ft. garage! I can think of several better things to do but a number of us spent a Saturday cleaning out the storage unit. We can now get the trailer in and still get to the racks with the modules. Our next home improvement project will be to build some more racks so that we can keep even more modules in the unit. Several members were discussing the idea of building a loft within the unit so we can store even more modules. Anyone noticing a trend here? The bright side to this insanity is that now we are storing only modules. The club made a significant donation to the SAMM shelter (two microwaves, four coffee pots, and misc. other stuff), and an even larger one to the landfill.

Plans are underway for the Temple show which is sure to be a great success, especially since our very own Robert Williams has been the coordinator. Bob just cannot say no - which explains his multi 1000 plastic model kit collection. No word yet on who will coordinate the show. Bob has gone into hiding and may try to enter the witness or wiret protection program.

Planning for the New Braunfels show is also underway. We will be taking an L-shaped layout with the large radius corners. After the Bulverde Library show in November. We need to organize some hands on activities. It is going to be a busy fall!

If you have any questions please feel free to Email me or call me in the evenings ([210-884-6863](tel:210-884-6863))
